ELECTRODE BODY EVALUATION METHOD AND LITHIUM SECONDARY CELL USING THE SAME

Examiner: Yuan

S.N. 10/087,359

Art Unit: 1745

March 1, 2005

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on January 11, 2005 has been entered. Claim 54 was amended. The specification was amended.

2. The text of those sections of Title 35, U.S.C. code not included in this action can be found in the prior Office Action issued on November 1, 2004.

Specification

3. The amendment filed August 20, 2004 is objected to under 35 U.S.C. 132 because it introduces new matter into the disclosure. 35 U.S.C. 132 states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: where a capacity of said lithium secondary cell is at least 2Ah, and a ratio of a limit discharging current to said cell capacity is at least around 31,25.

Applicant is required to cancel the new matter in the reply to this Office Action.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

5. Claim 54 and dependent claims 23-28 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. The recitation "where a capacity of said lithium secondary cell is at least 2Ah, and a ratio of a limit discharging current to said cell capacity is at least around 31,25" is not disclosed in the instant specification. If applicant believes said terms are fully defined, it is requested that applicant indicates column and line, and/or figure with number, identifying the support of the limitation.

Response to Arguments

6. Applicant's arguments filed on January 11, 2005 have been fully considered but they are not persuasive.

Applicant's principle arguments are

Table 1 of the original specification respectively discloses that the battery capacity is approximately 8Ah and the limiting discharging current is 250A.

In response to Applicant's arguments, please consider the following comments.

The instant disclosure teaches the limit discharge current is ranging from 250-1000A. See Tables 1-3. As admitted by the Applicant, the battery capacity is approximately 8 Ah with which the ratio of limit discharging current to cell capacity is calculated. There is no support to substantiate the capacity (2 Ah) and the corresponding ratio recited in claim 54.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dah-Wei D. Yuan whose telephone number is (571) 272-1295. The examiner can normally be reached on Monday-Friday (8:00-5:00).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Patrick J. Ryan, can be reached on (571) 272-1292. The fax phone number for the organization where this application or proceeding is assigned is (703) 872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
